Sewatec/Sewabloc – Waste Water Pump

- 1 High operating reliability**
Double-acting mechanical seal in tandem arrangement with oil reservoir seals off the pumped fluids
- 2 Cost reduction**
Standardised components are interchangeable within the entire Amarex KRT submersible motor pump series, so spare parts inventories can be optimised
- 3 Low-maintenance design**
Grease-packed rolling element bearings sealed for life
- 4 Variable hydraulic system**
Impellers and casing optimised for handling waste water
- Energy savings**
When combined with the high-efficiency KSB SuPremE® motor, the pump sets make for significantly reduced operating costs
- Variable installation type**
see below

Impellers

Technical data

Sizes	up to DN 700
Capacity	up to 2,775 l/s
Head	up to 95 m
Discharge pressure	up to 10 bar
Temperature	up to +70 °C

Installation type options
